

# 990 Elite Red Clover

## Clover

### SEEDS & SCIENCE

### Description

990 Elite Red Clover is a premium blend intended for hay and forage production in double cut systems. Comprised of three-year red clovers selected for high yields, excellent winter hardiness, and superb disease resistance, this seed mix is a reliable performer in areas with low pH or low fertility soils. This seed has a protective coating and comes pre-inoculated with rhizobacteria. Coating color may be different than pictured above. Differences in color will not affect performance.

### Key Features

- Premium blend for double cut systems
- Persistent, winter-hardy variety
- Excellent disease resistance
- High-yielding
- Seeds are coated and pre-inoculated

## Additional Specs

### General Characteristics

Segment	Forage
Species	Clover
Sci. Name	TRIFOLIUM PRATENSE

### Seeding Information

Approx. Seeds/Lb.	270,000
Seeding Rate - Alone/New (Lbs./Acre)	10-12
Planting Times	Early - Late Spring, Late Summer, Mid-Late Winter
Seeding Rate - Mixes (Lbs./Acre)	5-6
