DEER CREEK® SEED BY DLF

All Season Mix

Food Plot Mixes & Blends

SEEDS & SCIENCE

Description

All Season Food Plot Mix is an annual seed mix that produces an attractive and nourishing food source for deer, grouse, turkey, pheasant, and other wildlife. The blend contains annual forage grains, legumes, and brassica species that were selected to supply a dependable and long-lasting food source as well as provide cover for all wildlife.

Key Features

- Early fall planted annuals offer early/ late fall food source
- Performs well on light to heavy soil types in light shade to full sun
- Winter Rye will overwinter providing additional food source the following spring
- Optimally planted 6-8 weeks prior to killing frost, large biomass production for food source early and into late fall/winter for areas of heavy feeding pressure

Components
