DLF

Balin

Kentucky Bluegrass

SEEDS & SCIENCE

Description

Balin Kentucky bluegrass has medium-early maturity and offers high yields with strong growth in early spring as well as during summertime. It has good persistent and winterhardiness, providing a high yield in permanent pastures, where it competes well with other forage grasses as a tall-growing variety. It is high in forage quality and palatibility and tolerates close grazing. Balin has medium drought tolerance. If there is moisture available, it will stay green into the summer season almost as long as tall fescue.

Key Features

- Good disease resistance
- Suitable in mixes for intensive & extensive use
- Establishes fast with high yields
- Persistence & high yields in permanent pastures

Additional Specs

General Characteristics

Livestock	Cattle , Goats , Hogs , Horses , Poultry , Sheep
Usage	Pasture
Segment	Forage
Species	Kentucky Bluegrass
Sci. Name	Poa

Plant Characteristics

Plant Characteristics

Seeding Information

Approx. Seeds/Lb.	2177000
Approx. Seeds/Kg.	4789400
Seeding Rate - Alone/New (Kg./Hectare)	11-17
Seeding Rate - Alone/New (Lbs./Acre)	10-15
Planting Times	Spring, Late Summer-Early Fall
Seeding Rate - Mixes (Kg./Hectare)	5-11
Seeding Rate - Mixes (Lbs./Acre)	4-10
