

# Bee Pollen Mix

## Wildflowers

SEEDS & SCIENCE

### Description

Honey Bee & Pollinator Wildflower Mix is packed with a combination of annual and perennial species that produce an abundance of nectar-rich blooms, specially selected for their pollinator attraction and friendliness. This adaptable mix attracts pollinators, such as bumblebees, birds, and butterflies, providing season-long food and can be planted in all types of soils in any region in the United States. This mix is neonicotinoid-free and safe for all pollinators! Mix components are subject to change without notice, subject to availability. The function and intention of the mix will remain unchanged.

### Key Features

- Attracts bumblebees, birds, & butterflies with our nectar-rich neonicotinoid-free Honey Bee & Pollinator Wildflower Mix.
- Perfect for all soil types!

Moisture Boost Plus® crystals, ensuring every bag grows long lasting and beautiful flowers for pollinators and birds.
