

Crossfire 4

Tall Fescue

SEEDS & SCIENCE

Description

Crossfire 4 Turf-Type Tall Fescue (IS-TF 310 SEL) performs well into the deep south and exhibits excellent cold tolerance for northern zones. Superior turf quality comes from excellent drought tolerance, wear tolerance and shade tolerance. Crossfire 4 was selected for high turf quality and Brown Patch resistance. It has a fine leaf texture and high density with excellent stress tolerance. High density cultivars often sacrifice Brown Patch resistance but Crossfire 4 is one of the best against this serious disease.

Key Features

- Superior Southern and Northern Turf Quality
- Resistance to Brown Patch and Gray Leaf Spot
- Aggressive Tillering and Wear Tolerance
- Drought, Stress, and Shade Tolerance

Competition Grade® provides elite genetics for athletic fields, ensuring fast establishment, wear tolerance, and disease resistance. Tailored for field managers, it offers resilient, high-quality grass that enhances safety, aesthetics, and reduces maintenance costs.
