

Defiant XL

Reed Canarygrass

SEEDS & SCIENCE

Description

Defiant XL reed canarygrass is a tall, coarse, vigorous, long-lived perennial. It is one of the earliest grasses to begin growth in the spring and produces large yields of nutritious forage. Defiant XL can be used for pasture, hay or silage. Low alkaloid reed canarygrass offers potential for improved animal performance.

Key Features

- Performs well on poorly drained soils & overly wet environments
- Widely adapted & extremely drought tolerant
- Can be used for hay, silage or pasture
- Performs well on low pH soils
- Low alkaloid

XL Brand products feature improved varieties from DLF, each tailored to provide enhanced value, farm flexibility and profit potential.

Ratings

Scale 1-9, where 9 = best or most pronounced
