

# MasterGreen Fast Turf Mix

SEEDS & SCIENCE

## Turf Mixes/Blends

### Description

MasterGreen Fast Lawn is the perfect solution for quick and reliable lawn establishment, with rapid germination in just 3 to 5 days. Designed as a one-year grass solution, it provides a lush, temporary lawn that won't return the following year, making it ideal for short-term projects. This blend, composed of 94% Gulf Annual Ryegrass and 6% Perennial Ryegrass, is specially formulated for fast coverage, making it an excellent choice for filling in bare spots, overseeding, and repairing lawns after construction or landscaping.

Whether you need a quick fix for septic and drainage areas or a temporary green cover, X-Seed Fast Lawn delivers fast results with minimal effort. Its rapid growth ensures a dense, attractive lawn in a short period, providing an effective and affordable solution for homeowners and landscapers alike. With its easy establishment and broad adaptability, this mix is the go-to choice for those seeking a vibrant, green lawn without long-term commitment.

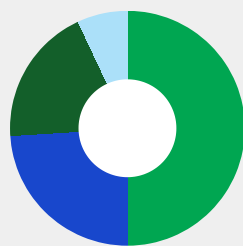

### Key Features

- Ultra-fast germination for quick establishment
- Ideal for short-term projects
- Perfect for filling bare spots, overseeding, and repairing lawns
- 94% Gulf Annual Ryegrass and 6% Perennial Ryegrass
- Easy to use & versatile

ProNitro® is a seed enhancement that gives developing seedlings a strong start through a controlled release of nitrogen and DLF's hydroactive water management technology. This ensures the emerging seedlings receive the full benefit of the available water and nutrients, and it encourages their roots and shoots to grow rapidly, developing strong, vigorous plants.

### Components

50%	Annual Ryegrass
24%	Perennial Ryegrass
19%	Kentucky Bluegrass
7%	Creeping Red Fescue

### Additional Specs
