

Pollinator Friendly Turf Mix

SEEDS & SCIENCE

Turf Mixes/Blends

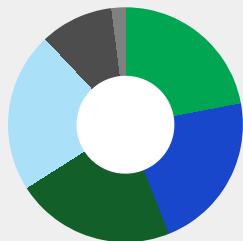

Description

Pollinator Friendly Turf Mix provides a worry-free low maintenance lawn. The NON-GMO formula produces a lush/green turf while the white clovers provide nutrition for its grass partner. Clovers additionally provide an ideal resource for bees and other pollinators. Pollinator Friendly Turf Mix is safe for children and pets in rural or city settings. Mix components are subject to change without notice, subject to availability. Mixes are subject to using coated components at Deer Creek Seed's discretion. Deer Creek Seed's high quality standards and intention of mix remain intact.

Key Features

- Kentucky bluegrass, perennial rye, creeping red fescue, annual rye, dutch white clover
- Non-GMO formula
- Low maintenance
- Nectar source for pollinators
- Wonderful lawn alternative
