

Silobuster Pea & Triticale Mix

SEEDS & SCIENCE

Forage Mixes & Blends

Description

Forage First SiloBuster Pea & Triticale Mix is a premium blend designed to deliver high-quality forage for livestock. This mix features 50% LC6040 Forage Peas and 50% Spring Triticale, making it an excellent choice for use as a nurse crop or for direct forage production. The SiloBuster Pea & Triticale mix not only ensures rapid establishment but also enhances overall forage quality, supporting optimal nutrition for livestock. This versatile blend can be planted in early spring as a nurse crop or in early fall to meet specific forage needs, offering growers the flexibility to adapt to changing conditions.

Key Features

- Blend of forage peas and triticale
- LC 6040 peas have a tougher seed coat
- LC 6040 peas have longer vines, larger leaf surface, giving higher yield, more milk
- LC 6040 peas germinate rapidly and emerge faster
