

Stargrazer XL

Tall Fescue

SEEDS & SCIENCE

Description

Stargrazer XL is a blend of improved endophyte-free tall fescue varieties that is medium in maturity with better drought tolerance than other cool-season grasses. This blend is well-suited for hay or grazing in a wide range of soils and climates.

Key Features

- Well adapted for Midwest, Mid-Atlantic & Northeast
- Suitable for both pastures or hay production
- Slightly earlier maturity than KY31
- Good yielder with excellent persistence

XL Brand products feature improved varieties from DLF, each tailored to provide enhanced value, farm flexibility and profit potential.

Ratings

Scale 1-9, where 9 = best or most pronounced

Additional Specs

General Characteristics
