

# Succulent Succotash Food Plot Mix

## Food Plot

SEEDS & SCIENCE

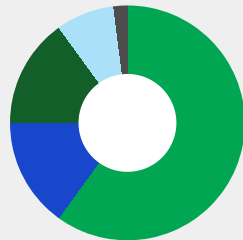

### Description

Succulent Succotash is a versatile annual mix, compounding nutritional benefits from cereal grains, clovers, and forage brassicas for an ultimate feast and deer draw. This mix is optimized for peak fall attraction, producing some cover, and succulent sources of forage. Succulent Succotash is a protein-rich, nutrient-dense mix that deer simply can't resist. Plant in late summer for best production of this fall forage deer magnet. Mix components are subject to change without notice, subject to availability. Mixes are subject to using coated components at Deer Creek Seed's discretion. Deer Creek Seed's high quality standards and intention of mix remain intact.
