

# Sunny Turf Mix

## Turf Mixes/Blends

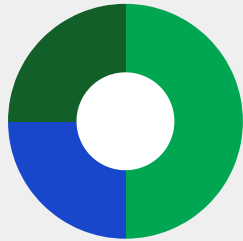

### Description

Sunny Turf Mix is an elite mix of Kentucky bluegrass, perennial ryegrass, and creeping red fescue. For best results, this mix should be planted in a full sun area (or an area with minimal shade), where these varieties simply thrive! This mix is sure to make those hot summer days a breeze. Seasonal availability will determine which Kentucky Bluegrass varieties are included in the mix. Subject to change at any time. Mix components are subject to change without notice, subject to availability. Mixes are subject to using coated components at Deer Creek Seed's discretion. Deer Creek Seed's high quality standards and intention of mix remain intact.

### Key Features

- Kentucky bluegrass
- Perennial ryegrass
- Creeping red fescue
- Full sun
- Heat tolerant
- Medium durability

### Components

50%	Kentucky Bluegrass
